FISA 2010 ANNUAL CONFERENCE

WELCOME

Fellow FISA Members,

I would like to invite you to join me and my wife, Lynn, in Charleston, SC for the 2010 FISA Annual Conference. While I have never personally been to the area, some of our friends have been there and stayed at The Mills House. I believe we are in for a real treat. The area promises a wonderful experience

with a rich history, much of it within walking distance from our hotel.

As you look through the brochure, I believe you will agree we have put together a very strong educational program. The Conference Committee used the input from member surveys along with comments from prior years to keep the program relevant to today. Improving and learning is essential to our future businesses and to the FISA organization. Please take a moment to review the topics of the speakers.

Networking is an essential part of each FISA Conference. The opportunities will be numerous. We will have round table discussions and some different twists to keep the conversations going. If you are thinking of coming for the first time, we look forward to meeting you. I don't think you will find a more welcoming and friendly group of people. I expect you will make contacts that you will have for years to come.

What you learn and who you meet will hopefully last a lifetime. Please join us in Charleston in September. If you have any questions about the Conference, please do not hesitate to ask. Remember this is your Conference. We are looking forward to a great meeting, and we hope to see you there.

Ron Eiseman, Twinco Inc.
Conference Chairman

Charleston, South Carolina is annually voted one of the nation's top destinations. Steeped in history, the charm of the Charleston peninsula is due in large measure to its architecture that has been lovingly preserved. Founded in 1670 and notable for its concentration of exquisitely restored Georgian, Federal and Greek Revival mansions, Charleston isn't just a city living in the past. Shops and art galleries flourish in the downtown area, and Charleston is known for its cuisine. There are so many excellent restaurants that the only difficult thing is choosing where to go first. Everywhere you look in Charleston there is something wonderful to see and enjoy. Come experience the charm of Southern hospitality in a genteel port city that balances tourism with quality of life. You are sure to fall in love with the lowcountry lifestyle.

The Legislative Landscape

Legislation. Regulation. Stimulation. More Taxation. What is happening in our nation? Jade West, Senior Vice President-Government Relations for the National Association of Wholesaler-Distributors (NAW) will highlight the legislation passed this year and its effect on your business. She also will forecast the outcome of the upcoming November elections and what impact they will have on the legislative outlook for next year. FISA is one of more than 85 trade associations that are members of NAW. The government relations staff of NAW represents the views of wholesaler-distributors and encourages your grass roots participation in government.

Jade West is Senior Vice President-Government Relations for NAW. Ms. West is in charge of the association's legislative activities on Capitol Hill. She is also Executive Director of NAW's Wholesaler-Distributor Political Action Committee. Prior to joining NAW, Ms. West served as Staff Director for the U.S. Senate Republican Policy Committee and was responsible for a staff of policy experts who provide technical and policy analysis, research papers, talking points, and detailed legislative summaries to Republican Senators and their staffs. In addition, Ms. West served as Executive Director for the U.S. Senate Steering Committee.

The Future is Your Decision

The United States and the rest of the global economy have begun a recovery trend. However, the road ahead is fraught with short and long-term difficulties ranging from commercial real estate woes to huge government deficits. We will be looking at the good and the bad and discussing why we think the general economic ascent will prevail. We will also be looking at the Institute for Trend Research's guide to surviving inflation at a personal and corporate level.

Brian Beaulieu has spoken at two FISA Conferences and is back by popular demand. He provides economic forecasts with 98% accuracy so companies can improve their performance and profits. Brian has been an economist with the Institute for Trend Research since 1982, serving as its Executive Director since 1987. His views have appeared in the Wall Street Journal, New York Times, Barron's and a number of other national publications and media outlets. Listening to Brian will enable you to see the future first before your competition does.

THINGS TO KNOW

Dress in comfortable resort attire. Collared shirts for the men and slacks or skirts for the ladies would be appropriate. Be sure to bring comfortable walking shoes because much of Charleston can be explored on foot. Temperatures in September average 85 degrees in the day and 68 degrees in the evenings. Despite the warm temperatures, it's always wise to bring a sweater or light jacket.
